

O.E.M. INTERCHANGE BY MANUFACTURER

The O.E.M. numbers listed in this interchange are cross referenced to the closest equivalent Auveco part. In some instances, the parts are not identically the same. There may be slight differences in the finish, length or washer outer diameter: however, the Auveco part is designed to service the same application.

This interchange is arranged numerically within each manufacturer. OEM numbers are in ascending order regardless of the number of digits in each O.E.M. number. Thus every number that begins with a 1 is listed before any number that begins with a 2. You should key on the first four digits to locate the number. For example, 1121865 is located before 11229 and after 11189734. OEM numbers that begin with a letter precede OEM numbers that begin with a numeral.
